

Product Description:

Woven brake lining made from asbestos-free raw materials, designed for high-demand industrial applications. It ensures strength, durability, and adaptability in various environments.

Available Sizes:

- Width: 1" to 20"
- Thickness: 1/4" to 1"
- Length: 8-meter rolls

Benefits:

- High flexibility — adapts to different drum diameters.
- Resistance to tension, shear, and temperature.
- Ideal for demanding applications.

Technical Features:

- Material: woven glass fiber with copper wire inserts.
- High-quality cotton and resins.
- 100% asbestos-free.

Applications:

- Elevators
- Hoists
- Cranes and overhead cranes
- Winches
- Lifts
- Marine and fishing industry
- Oil industry
- Mining industry
